Mines and Mining Stocks

GOLD CIRCLE IS

Snyder, Loose, Ellis and Wingfield Take Up Option on Rich Gold Claims.

SNYDER ON THE DISTRICT

SAYS LEDGES ARE BIG AND RICH -BOOM IS ON.

Willard F. Snyder, accompanied by and which is now getting well under way," said Mr. Sny'der. "The ledges are big and strong and, while there has Snyder was to make a heavy payment uncovered. Here is a chunk of ore that Gold Crown and Gift group of eight claims that were bargained for previous to Mr. Snyder's departure for the camp on Saturday last. Associated has been stripped, in three or four different productions of the property we have purchased. You see it is all filled with free gold. Well, wherever the ledge has been stripped, in three or four different productions.

The consummation of the deal hinged the way samples were taken. Wingfield, the latter of Goldfield.

COPPER STOCKS IN

Amalgamated the local coppers took a spurt up and were comparatively active. Utah Consolidated and North Butte have been sold short lately and they were the hardest to buy, and the easiest to move. Copper Range is as scarce as ever. Old Dominion. Isle Royale and Shannon will be taken in hand at once. Do not forget this is the time to buy coppers, before "New deals are being consummated". this is the time to buy coppers, before the metal begins to go up. Lake was active on the curb, up to 7%, and the local people are waking up to its value, and I left camp. This will greatly simplify the map is printed on heavy paper. with the scarcity of stock it will advance things, for nobody was certain where 24x36 inches in size, and is obtainable

Missourian when it comes to tackling new mining propositions and, while he had every confidence in the judgment of his own representatives, he wanted to see for himself. That is why he nade the trip to camp; that is why he lost no time in seeing that Foley got his money when he reached home yes-terday. Foley bought the ground early in the winter, before much was known Rich Vein in Park City Mine about its value. He stays in with the purchasing crowd for an interest, and will figure in the company that it is to be organized on the property. Before leaving camp men were put to work and, just as soon as it is possible to get materials and supplies into the prop-

erty and a place in which to take care of the men has been provided, development work will begin in earnest, Boom Is Under Way.

"I believe this camp is going to de serve the boom that has just started, gold camp of Gold Circle, forty-six been very little work done, as yet, miles northeast of Golconda, Nev., yes- there are at least fifteen properties terday morning. The first act of Mr. there now in every one of which sento Foley on the purchase price of the I broke out from the vein in one of the with Mr. Snyder in this deal are A. C. ferent places, we get ore that would Ellis, jr., C. E. Loose and George assay up to any amount, according to

"All of the ledges that I found time on the report of the engineers sent in to inspect while there made in the to examine the ground by the Salt Lake bunch and Wingfield's reprehardest. The ledge filling, or gangue, is a quartz-porphyry, heavily impreg-BOSTON AND NEW YORK

Following is the daily market comment of Paine, Weber & Co., Boston, together with the range of prices of copper stock and other Boston listings in which the west is interested, as well as a similar report on New York eurb transactions, by James A. Pollock & Co., and from which it is secured for use in this department of The Herald:

nated with iron in which the free gold makes. The property we have secured is well located, and my judgment is that we are going to make a big mine of it. In addition to the high-grade ores, I expect to see great quantities of milling rock, rock that will go from \$10 to \$30 per ton, opened up. Unlike most of the Nevada gold camps, there is an abundance of water at Gold Circle and milling can be most economically and profitchly complete. nated with iron in which the free gold ically and profitably carried on. These Boston. March 12.-Under the lead of features all appealed to me, for I real-

the central point was going to be. A without cost through application to th fine site has been chosen on a nearly firm mentioned. level bench right under the hills in which the mines are located, and within a short distance of water that can be piped down to the town for all What the name of the town is going to be I don't know, though the postoffice department will likely have a say. It is possible to get pretty good clients on Tuesday, is already moving meals there now, but sleeping accomtiating for four lots on which he pro-posed to erect a big, two-story hotel, but I did not learn his name.

are now handling the passenger traffic between Golconda and camp, and they are taxed to the limit. I was told that that he was satisfied the plant could five or six more autos would be in be installed and the wires carried from service within a few days. The fare the river to the mine for, a sum agby stage from Golconda is \$7 each gregating about \$20,000. At that price, way; it is \$15 by auto one way and \$25 for the round trip. Lots in the town-pay for itself in the saving in costs of site, I understand, were selling at \$150 for choice locations, with everything months it is in use. to indicate that the price would rapidly advance

under way, while some have already been consummated. W. R. Grant, son of A. M. Grant, formerly chief engineer of the Ontario company at Park City, who is in the machinery business at Reno, has got into a good thing. Mexican who is so largely interested in the Sierra Nevada Pioche district, D. E. McPherson and other Nevada operators. They have secured the Water Witch group of four claims and they get assays from croppings along the ledge running well up over \$100 per ton in gold.

"Leslie Savage and some of his friends were closing up a deal for fine ground when I was there, and Louis B. Gordon was making an examination of the properties of the district. He will be home in a day or two.

Club House Is Planned. "I left my brother, Grant Snyder, and S. M. Levy at camp to look after some other ground that will likely be taken over by us before long, but which I did not have time to investigate on my own account this trip. "As an evidence of what some of the big men think of the district, men who have been in there during the past week or ten days, it is only necessary to say that they have started a proposition looking to the building of a large club house, something on the plan of the Mizpah club at Tonopah, and the Mazuma club at Goldfield. was asked to get in on the scheme and the plan is to get the co-operation of all operators who get into the camp, so that a pleasant headquarters for all an be maintained. I have no doubt that the plan will be carried through, for the camp is going to make good, sure. Within a few days it will be connected by telephone, which now reaches one of the ranches about five miles from camp."

BOSTON STOCKHOLDERS PREPARING TO PROTEST

(Special to The Herald.) Boston, March 12.—Attorney Thomas J. Barry, of 4 Postoffice square, is seeking to form an organization for the mu-tual protection of stockholders of the Bingham Consolidated Mining company, "who do not think they are being fair-

plan of procedure has yet been decided upon by Attorney Barry, and no action will be taken until a meeting of the dissatisfied stockholders has been held. Granny

ALL GRADES OF COPPE

New York, March 12.-At th exchange today all grades of were advanced 1-8c per pound the bid and asked prices, makin 12 1-2412 3-4c, electrolytic 12 3-86 and casting 12 1-4@12 1-2c.

Reported Tapped at a Great Depth.

Kearns-Keith end of the mine of the rich Apex ledge.

The Apex company's property went into the Kearns-Keith company before the great coalition. The ground was always considered very valuable and in the early days it produced a great deal of rich ore down to the 400 or 600-foot level. It is said that the new openng in this rich vein gives more than the day: twice the original depth, and it is also said that the ore carries better than 50 per cent lead and several hundred unces in silver per ton. The King Co alition company is only just beginning to scratch the hidden wealth that wil be opened in its four miles of mineral bearing territory.

NEW MAP OF TINTIC FULL OF GOOD THINGS

The mining department of The Her ald acknowledges receipt of a copy of the new map of Tintic recently issue by Childs, Cole & Co., brokers. The feature of the map is found in th large number of claims and company possessions in the district not found in any of the older maps. All of th ions of the Beck Tunnel, Yan kee, May Day, Uncle Sam, Old Amer ican, Crown Point, Colorado, East Crown Point, Sioux Consolidated, Iron Blossom, in fact all of the newer prop ositions on the east side of the dis trict, now so much in the public eye are included, as well as much terri tory to the north never before shown. esse Knight's new railroad and th "New deals are being consummated Tintic Smelting company's site, with

MINING STOCK EXCHANGE the oil drill struck oil today at noon, at Trading Eases Up, Though Prices

Continue to Hold Strong. While nothing has been given out on the subject by the Silver King Coalition management, it comes from a pretty reliable source that one of the chief recent disclosures in that company's mines, has been the opening on the Alliance tunnel level, in the Kearns-Keith end of the mine of the ment. However, the stocks are all cheap at present."

There was a perceptible diminution in the volume of business transacted on the minution in the volume of business transacted on the mining exchange yesterday, but prices did not suffer at all, generally speaking. This market is certainly an enigma. It has been holding to almost a boom clip for several weeks in the face of the fact that, aside from the known spendid condition of the mines represented in most of the stocks, nothing at all has happened to justify the breaking out of a bull movement. However, the stocks are all cheap at present."

Continue to Hold Strong.

A letter from Mr. Goodwin, received yesterday says: "The reported oil strike is correct. The oil is here in quantities, sure, but the machinery was stopped and the hole covered till parties could locate on all the oil land they wanted before any excitement and rush of people occurred. What the justify the breaking out of a bull movement. However, the stocks are all cheap at the control of the mines represented in most of the stocks, nothing at all has happened to justify the breaking out of a bull movement. However, the stocks are all cheap at the control of the mines represented in most of the stocks, nothing at all has happened to justify the breaking out of a bull movement. However, the stocks are all cheap at present and of the mines represented in most of the stocks are all cheap at the control of the mining exchange yesterday, but prices did minution in the volume of business transacted on the mining exchange yesterday, but prices did minution in the volume of the mining exchange yesterday, but prices did minution in the volume of business transacted on the mining exchange yesterday, but prices did minuti ment. However, the stocks are all cheap enough, yet, and it would not take much in the way of a rise in metals and the shipment of ores to send them soar-

OIL IN PAYING QUANTITY IN SAN JUAN VALLEY

After two years of effort to reach oil in the vicinity of Bluff, San Juan ably lead to the establishment of

frequently made in that vicinity, but flow was difficult to strike. March 4 Charles Goodman of Bluff, writing to the passenger department of the Denver & Rio Grande railroad. made the following statement.

a depth of only 210 feet. At first the oil and gas spurted up ten feet abov the top of the well, then gradually died down. It will be a pumping well."

next move will be, can not be stated at present."

UTAH OIL FIELDS NOTICED

He visited the Dragon section, where the Uintah Tunnel O'l company is operating by tapping the sides of the hills and securing a flow of oil run-ning from kerosene to lubricator, according to reports made during the last two months

where I found more seepage. This pany country lies between the Green and White rivers. I secured 2,000 acres of land there and expect to begin develop-

"Forty miles north from Dragon, on the Colorado side of the line, I found another great basin, where Colorado people have eight wells already. This is high-grade oil and can be utilized for illumination. The wells are shallow as yet, but the oil rushes out with

but he is going to devote his immediate attention to the Uintah dis-

Secretary Howard S. Stowe, of the Salt Lake & Western Development company, the syndicate of fifty Salt Lakers who are operating the Santa Rita group of claims, adjoining the properties of the Hero-Nevada company, at Farrell. Nevada, reports that work is going steadily ahead. No sensational developments have yet taken place, but the shaft that was recently started in what is called the east cut in the great forty-five-foot ledge is showing improved values as it goes down.

The great ledge or dyke that crops in the property was trenched clear across at one point and assays ranging from a trace to \$1.46 in gold were obtained. At the most likely looking part of the vein a shaft was started and it is in this that results are expected with depth.

On the Hero property good ore is believed to be a stored to the store of the salt Lake.

We are selling to desirable citizens on easy terms. An equable clime, ready market at producers' door, growing modern town, excellent schools, and churches, a clean, high-class community of 5,009 souls—all go to make life pleasant and profitable. Wheat averages thirty-five bushels, oats fifty bushels, alfalfa two cuttings, 3½ to 4 tons, free timber to settlers, water rights with deed, coal \$2 per ton, vast open grazing range, good horse and cattle country. Let me tell you, personally, more of the last of the Fertile Low-Priced Lands in America.

H. D. WINGER.

Windsor Hotel, Salt Lake. On the Hero property good ore is being encountered as the ledge is opened and reports from the ground indicate that considerable ore running over \$100 per ton is being sacked ready for shipment.

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$60,000, as follows: Silver, lead, gold and copper ores, \$15,000; base bullion, \$45,000.

Metal Market.

Silver, 55%c per ounce. Copper (cathodes), 12 3-16c per pound. Lead, \$3.75 per 100 pounds.

right after a rest.

county, Utah, it is now authentically reported that oil has been struck in county, Utah, it is now authentically reported that oil has been struck in paying quantities and this will probably lead to the establishment of a live district there in the near future, says the Denver Republican. Reports of cil indications have been

"Word has just come into town that

The presence of oil in paying quantities in this vicinity has been predicted for many years by geologists and others who have studied the character of country near Bluff. For this reason the report of a strike comes as no great surprise, but of course it remains to be seen from future developments how extensive it will prove.

DOWN LOS ANGELES WAY

J. V. Stewart, who has just finished a six weeks' exploration of the oil seca six weeks' exploration of the oil sections in Uintah country. Utah, declares that great developments are certain in that country which is to be tapped by the Moffat road, says the Los Angeles that country which is to be tapped by the Moffat road, says the Los Angeles

"I brought in a bottle of oil which

certainly appears to be the real lubricating article," said Mr. Stewart, who is well known throughout California and Nevada mining sections.

Mr. Stewart said he still had faith in the Juab and Virgin fields of Utah,
